

Perinatal Italian Network -PIN-

WHY PIN?

Gather Together
Obstetricians and Neonatologists

To build and achieve the
TRULY PERINATAL MEDICINE

Mission

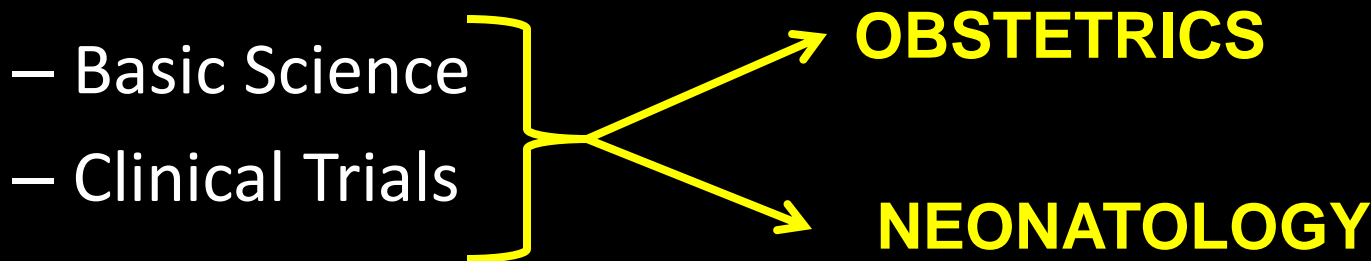

- **To provide a national forum of interaction and collaboration among groups that are involved in maternal fetal medicine and neonatology**
- **To open new avenues for cooperation in PERINATOLOGY: design large national trials, speak common language, share funding, and participate to the Global Obstetric Network -GONET-**
- **To promote collection and interdisciplinary discussion of evidences in order to provide guidelines useful in clinical practice**
- **To provide technical advices to Health Authorities, in order to assess standard of care, re-direct issues and resources in an effective perinatal perspective.**

Objectives (1)

1. Starting from the Vermont Oxford Neonatal Network → build up a PERINATAL DATABASE to provide info of the pregnancy behind a preterm baby

★ **NEW Collaborative Network**

2. PERINATAL database will allow research questions:

Objectives (2)

- 3. Promote the cooperation between the two categories of Professionals bearing in mind the common outcome**
- 4. Define national Guidelines to manage pregnancies at risk, in the interest of both mother and baby**
